Grade 5 Science

Dr. Day

Week 15: December 3rd – December 7th, 2018

Types of consumers, food chains, and food webs

This week in science class the 5th graders will learn about the three types of consumers: carnivores, omnivores and herbivores. This will include the structure of their teeth and what they eat. We will then continue to learn about how biotic factors in ecosystems interact with a discussion of food chains and food webs.

Homework:

Do the worksheet reviewing biotic ecosystem factors over the weekend and turn it in next Monday the 10th
