

CROSSROADS ACADEMY  
Middle School Campaign 2020

95 Dartmouth College Highway  
Lyme, New Hampshire 03768

# BUILDING FOR THE FUTURE

## Strong Minds and Kind Hearts

*“An inspirational learning environment for our community, and an investment in the future of our school and the students we serve.”*

—Brad Choyt, Head of School

# OUR FUTURE IS

“Crossroads already feels like such a warm place to learn because of the teachers and my friends, but a new building will make it feel like it’s truly a home. A home where I can feel safe to be my most creative self.”

—Fifth Grade Student

# BRIGHT

# THE PATH FORWARD

Our total fundraising goal is \$5.3 million. Help us meet our goal with these **naming and honoring opportunities**:

<b>\$50,000</b>	Entryway Lobby Faculty Offices (3 total) <i>(1 Reserved)</i> Break Out Rooms (3 total)
<b>\$75,000</b>	Conference Room
<b>\$100,000</b>	Main Hallways Middle School Office <i>(Reserved)</i> Faculty/Staff Lounge
<b>\$150,000</b>	Language Classrooms Instrument/Prep Room
<b>\$250,000</b>	Major Classrooms (6 <sup>th</sup> , 7 <sup>th</sup> , 8 <sup>th</sup> , and Math)
<b>\$250,000</b>	STEM Laboratory
<b>\$500,000</b>	Community Commons Physical Sciences Laboratory

“Throughout high school at KUA, undergrad at Middlebury, and graduate school at Oxford, I was often pleasantly surprised to recall my earliest exposure to a given text. The works most essential to my field of study, and the ones to which I return again and again, were almost all first presented to me in a Crossroads classroom.”

—Tori Pipas '10

**COMMUNITY COMMONS**  
to house student performances  
and all-school gatherings.

*Imagine the possibilities*

**EIGHT NEW  
CLASSROOMS,  
THREE BREAKOUT  
ROOMS, and a  
CONFERENCE ROOM**  
for collaboration and  
small group instructions.

*Imagine the space*

## SCIENCE LABORATORIES

to support our Science program and to further strengthen our relationship with the New Hampshire Academy of Sciences.

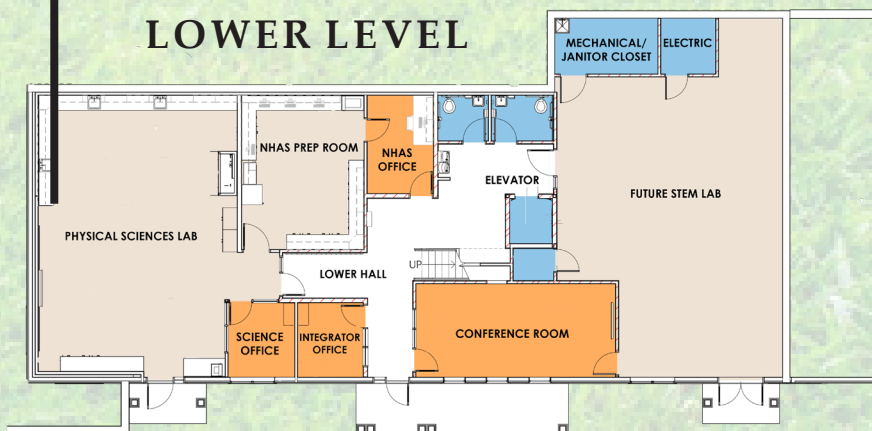

*Imagine the STEM opportunities*

## NEW ENTRANCE

to establish a comfortable greeting area and a more secure campus.

*Imagine the beauty and warmth*

## LOWER LEVEL

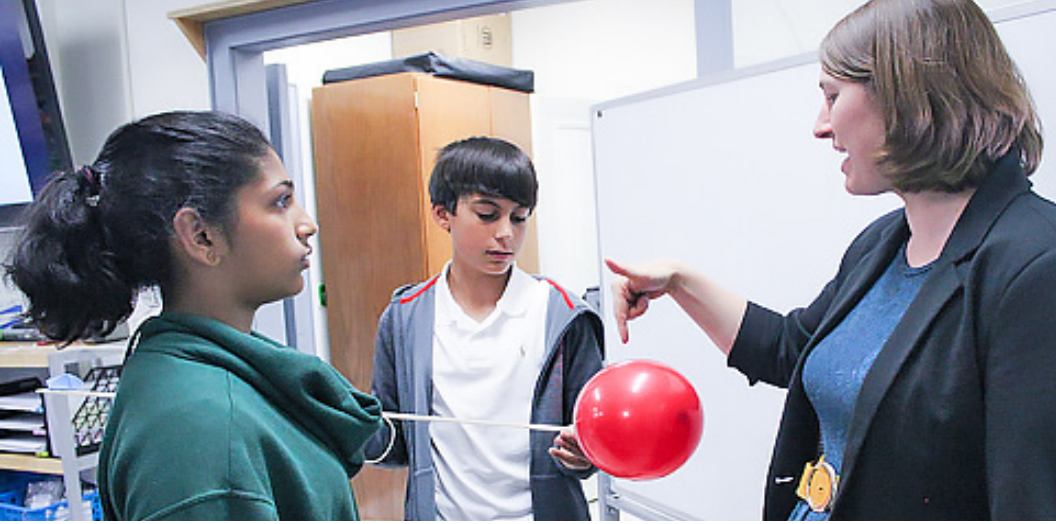

“As a teacher it is my job to teach my material to the best of my ability, to be accessible and approachable to my students, and to contribute to our larger community. The new Middle School will enhance my job on all of these fronts.”

—Mrs. Maria Squire P'23,'26  
*Middle School Math Teacher*

“In the new building, I will have greater flexibility to utilize a wide variety of teaching methods to deeply engage my students in science. This will allow us to maximize our learning in the lab and dig into the rich curriculum we cover.”

—Dr. Jessica Day  
*Middle School Science Teacher*

# THE VISION IS CLEAR

## A Space for New Opportunities

The time is right to create a nurturing, collaborative space for the Crossroads Middle School. This cutting-edge building will integrate beautifully into the natural campus setting, using energy efficient and environmentally mindful building practices. Engaging spaces will support rich learning, teaching, and the daily student experience. Our K-8 community will utilize the new Middle School for assemblies, cross-grade partnerships, mentor work, and professional development. We are ready. The time is now.
