

Incoming 6th-grade Spanish

This summer, students will work on Duolingo. The activities in this App are usually split into units containing vocabulary, grammar, and pronunciation using spaced repetition. Exercises include written translation, reading and speaking comprehension, and short stories. Lessons include matching, translating, speaking, and multiple choice. I will be able to track students' progress. The students in this class have already created and joined our Spanish class.

Instructions for students to join incoming 6th-grade Spanish 2022/2023 with computers at home.

If you are on a computer, go here:

www.duolingo.com/classroom/qufzpa

If you are on a smartphone or tablet:

1. Download the Duolingo app and open it up.
2. Press Get Started. Then select Spanish.
3. Set your Daily Goal and continue (you can change this later).
4. **If you don't have an account**, please create a profile with your school email.
5. On Android, press the menu icon at the top right corner and press "Create a Profile.
6. On iOS, press Profile in the top left corner and create a Profile.
7. Type in your Name, Email, and Password, then press Create.
8. Go to your Profile and press Progress Sharing.
9. Type in your Classroom Code: **qufzpa**
10. Press Join Class.
